

Community Handbook eff. 3/2017 Revised Rev. Oct. 2017.

Revision to General Rules and Regulations, 1. Landscaping/Bird Feeder Rule, Eff. Aug. 1, 2018

Hummingbird feeders containing liquid feed are permitted on rear decks, in trees directly adjacent to the unit and along the wood line at least 25' from the building. They are not to be attached to the siding, support structures or the windows of any building.

Birdhouses and all other bird feeders are permitted only at the edge of the wood line which must be at least 25' from any unit. No bird feeders of any kind are to be attached to or hung from freestanding trees or shrubs in the common areas or along any waterways or ponds.
